Capital Project Team

Roles & Responsibilities

A detailed reference for every volunteer leadership role in the Capital Project Team

Prepared for internal volunteer use

3. Approval & Compliance

Role Title: Lead — Approval & Compliance

Reports To: Department Head

Role Purpose

This role keeps every mandir project contractually sound and fully compliant — making sure tendering is run properly, contracts are safe to sign, and all statutory certifications and approvals are in place before and during construction.

Key Responsibilities

- **Tendering —** Runs the tender process for major works packages and evaluates bids received, ensuring a fair, transparent and well-documented process.
  - Prepares tender documentation and scopes of work in conjunction with the relevant technical lead.
  - Compares bids on price, capability and risk, and recommends a preferred contractor.
- **Contract check —** Reviews and verifies contracts before signing, protecting the Sanstha's interests on scope, price, timing, warranties and liability.
  - Checks contract terms against the approved budget and project scope before recommending sign-off.
  - Flags any unusual or high-risk clauses to the Department Head.
- **Certifications —** Obtains all required certifications and statutory approvals — planning permits, building approvals, occupancy certificates and similar — so construction is never at risk of a compliance stop-work.
  - Tracks certification requirements and renewal dates across every active project.
  - Maintains a compliance checklist per project and confirms completion before key milestones (e.g. start of construction, handover).
- **Consultant coordination —** Engages and coordinates external consultants and certifiers (planning consultants, building surveyors, certifiers, legal advisors) needed to support approvals.
- **Vimarsh —** Present at the Capital Project Team's regular scheduled Vimarsh.
- **External meetings —** Attends meetings with certifiers, planning consultants, council officers or legal advisors, where and when required.

Coordinates Closely With

Works closely with the Budget & Cost Control lead (contract values), the Architectural Plan & Design and Construction leads (permit and certification dependencies), and local council/authority contacts.
