Capital Project Team

Roles & Responsibilities

A detailed reference for every volunteer leadership role in the Capital Project Team

Prepared for internal volunteer use

7. Construction, Façade Design & Installation

Role Title: Lead — Construction, Façade Design & Installation

Reports To: Department Head

Role Purpose

This role delivers the physical construction and the mandir façade end to end — from coordinating fabrication overseas through to installation and handover on site.

Key Responsibilities

- **Coordination with India team —** Coordinates façade design and fabrication with the team in India, ensuring intricate stonework and architectural elements are produced to specification and on schedule.
- **Overseas freight & logistics —** Manages international freight and logistics for materials shipped from overseas, including customs, scheduling and on-site delivery coordination.
- **Façade installation & permits —** Oversees on-site façade installation and obtains all permits required for that work, sequencing it safely alongside the wider construction programme.
- **Coordination with trades —** Coordinates trades and on-site contractors across the build, keeping the construction programme on track and issues resolved quickly at the coalface.
- **Vimarsh —** Present at the Capital Project Team's regular scheduled Vimarsh.
- **External meetings —** Attends meetings with the India fabrication team, freight and logistics providers, and on-site trade contractors, where and when required.

Coordinates Closely With

Works closely with the Architectural Plan & Design lead (façade design intent), the Approval & Compliance lead (construction and installation permits), the Engineering Service lead (services sequencing on site), and the Budget & Cost Control lead (freight and construction cost tracking).
