Capital Project Team

Roles & Responsibilities

A detailed reference for every volunteer leadership role in the Capital Project Team

Prepared for internal volunteer use

5. Engineering Service

Role Title: Lead — Engineering Service

Reports To: Department Head

Role Purpose

This role delivers all building services and engineering systems for the mandir — electrical, lighting, security, plumbing, fire and HVAC — so the finished building is safe, compliant and fully functional.

Key Responsibilities

- **Electrical —** Oversees electrical design, supply and installation across the mandir, ensuring capacity, safety and compliance with relevant standards.
- **Lighting —** Leads interior and exterior lighting design and fit-out, balancing functional, ceremonial and aesthetic lighting needs.
- **Security —** Specifies and oversees access control and alarm systems to protect the mandir, its occupants and its assets.
- **Plumbing —** Oversees plumbing and hydraulic services across the building, including supply, drainage and any ceremonial/water requirements specific to mandir use.
- **Fire —** Ensures fire services and life-safety compliance are designed, installed and certified to the required standard.
- **HVAC —** Oversees heating, ventilation and air-conditioning (HVAC) systems to deliver year-round comfort for large congregational spaces.
- **Vimarsh —** Present at the Capital Project Team's regular scheduled Vimarsh.
- **External meetings —** Attends meetings with the electrical engineer, civil engineer and other specialist engineering consultants, where and when required.

Coordinates Closely With

Works closely with the Architectural Plan & Design lead (services integration into the building design), the Construction & Façade lead (installation sequencing), the IT & Infrastructure lead (shared cabling/infrastructure pathways), and specialist trade contractors.
