National Admin – Nativ Farms

The National Admin - Nativ Farms is responsible for leading the brand, market expansion, product development, and customer network of Nativ Farms at a national level. The role ensures that all strategies, operations, and partnerships align with the organisation's values of purity, authenticity, and excellence, while achieving sustainable commercial growth.

Brand Strategy and Positioning

- **Lead Nativ Farms Brand Positioning and Market Strategy**
  - Define the brand's core value proposition, target customer segments, and channel strategy aligned to the Nativ Farms Vision
  - Analyse market trends, competitor landscape, and customer insights to identify growth opportunities and refine go-to-market approach.
  - Align brand positioning with broader Nativ Farm s expansion plans across metro and regional centres.

- **Guide Product range development and innovation**
  - Lead planning of product portfolio that blends traditional recipes with modern convenience, health focus, and scalability.
  - Review customer feedback, sales data, and demand to refine existing products and introduce new SKUs.
  - Work closely with procurement, and operations teams to ensure quality sourcing, standardised recipes, and production efficiency.

- **Set retail pricing and positioning strategy**
  - Establish pricing frameworks that reflect product quality, ingredient sourcing, and target market positioning (value vs premium).
  - Benchmark pricing against competitors and market expectations to maintain competitiveness while protecting margins.
  - Monitor sales performance and margin trends and adjust pricing or promotions to support sustainable revenue growth.

Market Development

- **Identify Growth Opportunities and New Markets**
  - Evaluate potential expansion into new metro, regional, and online channels aligned with Nativ Farms and Shayona footprint.
  - Assess demand for new product categories

- Explore partnerships or distribution models to enter new customer segments. (i.e. National Retail Stores)

- **Monitor Competitive Landscape**
  - Track competitor product ranges, pricing, packaging, and promotional activities
  - Benchmark Nativ Farms against similar brands in quality, positioning, and value perception
  - Identify emerging trends, new entrants, and potential threats or opportunities in the market

- **Market Intelligence**
  - Review sales data and purchasing patterns to understand customer preferences and demand cycles
  - Use insights to inform product development, pricing strategies, and marketing campaigns

- **Market Development and Expansion**
  - Identify and secure new retail channels including Indian grocery stores, specialty retailers, and major supermarket chains.
  - Support onboarding and relationship management of distributors, wholesalers, and retail partners.
  - Develop expansion strategies across metro and regional markets.

Growth Strategy

- Develop and execute national growth plans aligned with revenue and expansion targets.
- Monitor sales performance, distribution footprint, and market penetration.
- Identify and develop new revenue streams including institutional supply opportunities.

Stakeholder Relationship Management

- Build and maintain relationships with approved suppliers aligned to Nativ Farms' purity and quality standards.
- Negotiate pricing, supply terms, and delivery arrangements.
- Ensure ethical sourcing, compliance, and quality assurance across the supply chain.

Policy, Process and Governance Framework

- Develop, document, and implement standard operating procedures (SOPs) for Nativ Farms across operations, procurement, inventory management, retail sales, and distribution.
- Establish financial processes and controls in collaboration with the Finance team, including pricing approvals, purchasing protocols, stock control, revenue reporting, and cost management.

- Draft and maintain standard templates and agreements for suppliers, distributors, retail partners, and service providers (e.g. supply agreements, consignment terms, retail partnerships, licensing/branding usage where applicable).
- Ensure all policies, processes, and agreements are aligned with organisational governance requirements, legal obligations, and risk management standards.
- Periodically review and update policies and procedures to support scale, compliance, and operational efficiency across all centres.

Product Development & Portfolio Management

- **Product Development**
  - Lead development of new product lines aligned with traditional values and modern customer needs.
  - Develop a product sampling plan and customer's feedback sessions.
  - Work with supplier to standardise product quality and packaging.

- **Product Portfolio Management**
  - Manage the overall product portfolio and SKU mix across categories.
  - Review product performance and rationalise or expand offerings as required.

Compliance, Quality & Brand Integrity

- Ensure compliance with food safety standards, labelling laws, and regulatory requirements.
- Maintain strict adherence to vegetarian, satvik, and purity standards of the organisation.
- Monitor quality control across production, packaging, and distribution.

Business Performance and Reporting

- Setup and monitor monthly Sales and Brand Awareness KPIs
- Monthly Performance reporting to Board
- Track KPIs including:
  - Revenue growth and sales targets
  - Expansion of retail and distribution network
  - Product portfolio growth and performance
  - Brand awareness and market penetration
  - Supplier performance and cost management
  - Compliance with quality and regulatory standards
- Budget Management
  - Prepare detailed yearly budget
  - Track Budget vs Actual
