1) Bank Reconciliation

Bank reconciliation is a critical internal control function that protects financial integrity, prevents errors, and ensures transparency. Timely reconciliations enable accurate reporting to mandirs, trustees, and auditors, while also supporting informed decision-making.

- Review bank feed transactions created by Acumatica through automated or manual rules.
- Prepare monthly reconciliation statements for the Cultural Trust's bank accounts.
- Identify and resolve discrepancies such as missing entries, timing differences, or posting errors.
- Ensure cash and bank balances are accurate for reporting and decision-making.
- Complete reconciliations within strict monthly deadlines to avoid delays in financial close.
- Support timely reporting to management, trustees, and auditors.

2) Ledger Review

A clean and accurate general ledger is the foundation of reliable financial reporting. Regular review prevents misstatements and strengthens audit readiness.

- Examine general ledger accounts for accuracy, completeness, and proper classification.
- Identify unusual transactions, misclassifications, or errors requiring correction.
- Correct misallocated transactions to maintain data integrity.
- Review GST accounts to ensure no GST codes are used, as the Cultural Trust is not GST-registered.

3) Checking GST Claims

As the Cultural Trust is not registered for GST, it is critical to ensure that no GST is claimed or recorded in the accounts. Regular checks prevent compliance risks and audit issues.

- Review GST-related accounts to confirm no GST codes are applied to transactions.
- Identify and correct any transactions incorrectly coded with GST.

4) Follow-Up on Unreconciled EFT & Cash Transactions

Unreconciled EFT and cash transactions can lead to misstated income, delayed reporting, and control weaknesses. Active follow-up ensures timely resolution and strengthens cash-handling discipline across centres.

- Communicate with centres to resolve pending EFT and cash deposit discrepancies.
- Follow up on outstanding or unmatched receipts and deposits.
- Ensure income and expenses are recorded in the correct period.
- Strengthen internal controls over cash and electronic receipts.

5) Reconcile Clearing Accounts

Clearing accounts act as temporary holding accounts and must be cleared regularly. Unresolved balances can indicate errors, missing postings, or control gaps.

- Reconcile clearing accounts across all centres, including Cash, EFT, MOTO, and Bank Clearing accounts.
- Prepare reconciliation statements for each clearing account.
- Ensure inter-branch transfers, settlements, and suspense entries are cleared promptly.
- Investigate and resolve long outstanding or unexplained balances.
- Prevent accumulation of aged items in clearing accounts.

6) Prepare Reports via Velixo

Accurate and timely reporting supports informed decision-making by management and trustees. Velixo enables detailed, centre-level reporting integrated with Acumatica.

- Use Velixo to generate financial reports at branch and centre level.
- Analyse performance, budget utilisation, and variances.
- Assist in preparing budgets and financial projections for centres, when required.
- Support management and treasurer with reliable financial insights.

7) Reminder Notices to Accounts Admin

Regular reminders promote timely banking of funds and reinforce accountability at centre level, reducing the risk of loss, delay, or misreporting.

- Issue reminders to centre accounts administrators for prompt cash deposits.
- Follow up on delays in banking or reporting of receipts.
- Encourage compliance with financial procedures and timelines.
- Support improved financial discipline across centres.

8) Management Fees Reimbursements to Mandir Trust

Management fee reimbursements must be accurately calculated, approved, and recorded to ensure transparency and proper inter-entity accounting.

- Prepare detailed workings for management fee debit notes.
- Submit debit notes to the Treasurer for review and board approval.
- Coordinate with Accounts Payable for timely payment of approved debit notes.
- Record debit notes accurately in the accounting system.

9) Audit

A structured and timely audit process ensures statutory compliance and builds trust with stakeholders. Early preparation minimises audit delays and issues.

- Prepare audit working papers by the 10th working day after year-end.
- Prepare financial statements and supporting schedules by the 15th working day after year-end.
- Arrange review of financial statements by the Treasurer.
- Provide financial statements and working papers to auditors and support the audit process.
- Obtain audited financial statements and submit them to the Treasurer for board approval.

10) Adhoc Tasks

The National Accounts function often supports special projects and unplanned requirements that ensure smooth financial operations across the organisation.

- Provide accounting inputs for projects where income is recorded under the Cultural Trust.
- Assist with special assignments or financial reviews as required.
- Undertake other ad-hoc accounting tasks relevant to the Cultural Trust.
